- a review at the end of each unit that provides for consolidation of learning
- case studies that link science to real-life situations and present balanced views on sensitive issues.
- 'information' boxes providing interesting additional information and 'Note' boxes that bring important information to the learner's attention

The education ministry has introduced a number of important curriculum forms, including Curriculum 2005 in 1998, the National Curriculum Statement in 2002, and most recently, the Curriculum and Assessment Policy Statements (CAPS) in 2012 in Grade 10. The latter was aimed at replacing the NCS in order to improve the quality of teaching and learning. The need for replacement was necessitated by problems that teachers experienced

concerning understanding and implementing various previous curriculum policies. The literature study and theoretical framework explored scholarly contributions that are relevant to CAPS implementation. The purpose of this study is to determine teachers' perceptions, and identify and clarify possible barriers relating to the implementation of CAPS in Grade 10 in selected schools Ndwedwe in Durban. For sampling purposes, rural disadvantaged schools were selected to explore the knowledge and experiences teachers hold with regard to curriculum implementation. Exploratory qualitative research design was executed with a sample of purposively selected participants which constitute one Head of Department and two teachers from each of the five different schools. Study & Master Life Skills has been especially developed by an experienced author team for Curriculum and Assessment Policy Statement (CAPS). This new and easy-to-use course helps learners to master essential content and skills to build their life skills knowledge. The innovative Teacher's File includes:

- expanded contents pages that provide a detailed work schedule for the whole year
